What are you looking for in an Australian School?

International Student Programme

Find your place at Macarthur where opportunities abound
...an academic, supportive, caring and safe environment
What is important in your choice of Australian school?

A place that will care for
and prepare your child for further study at
university in Australia or anywhere in the world.
The Macarthur Way

Macarthur Anglican School has had an international focus for over twenty years and has provided university pathways for students from throughout South East Asia.

Our experience demonstrates that students who come to Australia for their final years of schooling gain great advantage in the global employment market. Many university pathways become available for our students and we love seeing graduates achieve great success at university.

We take great pride in the highly successful International Student Programme on offer and invite you to experience it for yourself.

Macarthur is a school that encourages and prepares international students to achieve great academic success. The aim of the School is to have students graduate from Macarthur with a matriculation qualification into university.

The International Student Programme has seen many international students over the past twenty years enter a range of university courses at the University of Sydney, New South Wales University, University of Technology Sydney, Macquarie University, Wollongong University and the University of Western Sydney. A number of students have also gained places in universities in their home countries with the intention to study masters level university courses in Australia.

There is a wide range of subject choice available to students including English or English as a Second language, Mathematics at standard and extension levels, Physics, Chemistry, Biology, Economics, Business Studies, Software Design and Development, Design and Technology, History and many more.

There is a dedicated International Student Co-ordinator to further assist students with their study options as well as an Intensive English Assistance and Orientation Programme for all international students.

An Invitation

Come and study in Sydney, Australia and experience the benefits of a world renowned high school curriculum with excellent matriculation opportunities to Australian universities and other universities world wide.
Our Staff

Our staff have a love of learning that inspires our students to work hard and achieve their goals.

Macarthur teachers are carefully selected so that they have both the skills and the determination to ensure that your child is well taught. They want to develop a passion for learning in their students. Teachers model lifelong learning to their students and ensure their classrooms are vibrant places where contemporary teaching practices are applied. Teachers are regularly involved in further study and professional experiences which assist them to improve their skills.

Academic Success in a Safe and Secure Place

As the school of first choice for many and with an outstanding record of academic achievement, Macarthur has developed a proven educational tradition of an academically challenging curriculum which is well supported to ensure each student experiences a sense of accomplishment.

Teaching and learning takes place inside and outside the classroom and across wonderful facilities specifically designed for academic study. An excellent library is amongst the facilities which international students make use of every day.

Macarthur also has a highly regarded student-centred pastoral care programme providing pastoral assistance and academic support that benefits every student. Pastoral and academic care includes teacher managed study sessions and a vacation study camp for Year 12 students. Our students are given assistance in preparing themselves for university.
Our past international students have achieved great success in a wide variety of areas and we always enjoy hearing of their university achievements.
